AA Actuaries & Consultants

THE IFRS 17 CLOSE, ENGINEERED

Your IFRS 17 reporting, run in a system — not a *spreadsheet.*

AA Actuaries & Consultants has built an IFRS 17 reporting platform for insurers — automating measurement, disclosures and the audit trail that today consume your reporting cycle. **It is ready now, and six insurers are already onboard.**

THE PROBLEM WE SOLVE

Across Pakistan's insurance sector, IFRS 17 measurement and reporting still run on manual, spreadsheet-heavy cycles that don't scale with policy volumes or regulatory pace — rebuilt by hand each period, reconciled late, and defended line by line at audit. They don't need to, anymore.

INSIDE THE PLATFORM

I **Measurement engine.** GMM, PAA and VFA measurement with a full CSM roll-forward — run consistently every period.

II **Data & reconciliation.** Ingests policy and admin data, reconciles it, and traces every figure back to source.

III **Disclosures & movements.** Movement analysis and IFRS 17 disclosure notes generated ready for the accounts.

IV **Reporting dashboards.** Management-ready views of results and drivers — decisions from live numbers.

V **Audit trail & controls.** Every calculation versioned, timestamped and traceable — it holds up the first time.

VI **Reserving & regulatory.** Reserving and regulatory reporting rebuilt as automated, auditable workflows.

Why AA

Actuaries first
Four decades of actuarial practice — formerly Anwar Associates — behind every calculation.

Proven at scale
We built and delivered the pension systems now run by the Governments of Pakistan, Sindh and the Ministry of Defence.

Built for here
Designed around how Pakistani insurers report, and how the regulator expects it — not a foreign template.

The same platform and team also digitise the wider actuarial function — pension reform, benefit engines, member-data migration and management reporting — so the investment compounds beyond a single standard.

Large systems, **delivered**

DELIVERED	**Government of Pakistan — Federal**	Pension system
DELIVERED	**Ministry of Defence**	Pension system
DELIVERED	**Government of Sindh — with UNDP**	Pension system
PIPELINE	**Government of Punjab**	Pension reform programme

6
Insurers currently onboarding

40+
Years of actuarial practice behind it

3
Government systems built & delivered

THE FASTEST WAY TO JUDGE IT

Let's run it on your numbers.

Give us one recent reporting period and we'll show you your own IFRS 17 results through the platform.
